

MesoPure

acne prone skin

MesoPure is a specific daily use gel to acne prone skin care. Its formula has purifying, gentle exfoliating, astringent, and balsamic properties. It contains panthenol, salicylic acid, tea tree oil, marigold, niacinamide, allantoin, camphor, zinc, biotin and menthol, among other active ingredients. MesoPure provides the following specific benefits:

- It has a gentle exfoliating action that prevents pore clogging.
- Minimizes and prevents pore dilation.
- It has purifying properties that help to avoid acne proliferation.
- It exerts an astringent action, helping to recover the natural balance of the skin.
- Calms and cools redness associated with inflammatory acne processes, homogenizing skin tone.
- It helps to prevent and improve acne marks.

MesoPure is the indispensable cosmetic complement to your professional medical-aesthetic treatment.
